

Installation Requirements:

Xampp Software

Download Link: <https://www.apachefriends.org/download.html>

Steps To Run:

1. Ensure to install XAMPP in root directory or C-drive.
2. Open “Xampp → htdocs” folder in file explorer.
3. Extract the zip file in this folder.
4. Open Xampp Control Panel.
5. Press ‘Start’ for Module ‘Apache’ and ‘MySQL’.
6. Press ‘Admin’ for Module ‘MySQL’ to view the database. This opens phpMyAdmin in a browser. (If this doesn’t work, there might be error in installation)
7. In phpMyAdmin, go to ‘import’ tab.
8. In ‘Choose File’ select ‘I7.sql’ (inside folder Insurance-Management-System), and press ‘Go’.
9. Ensure following path is present in your computer:
“C:\xampp\htdocs\Insurance-Management-System”.
10. Open New Tab in browser and paste following path:
“http://localhost/Insurance-Management-System/DBMS/index.php”
11. Following should appear to you:

12. Login ID and Password are same. Example: For Admin_id ‘11548’ password is 11548 and for Agent_id ‘1191830’, password is 1191830.
