

Lesson 1 Tools Assembly and Map Placement

1. Packing List

We need to prepare a map before athletics and place step and hurdle on the corresponding position on the map. All the required stuffs are as follow:

Picture	Name	Quantity
	map	1
	white hurdle accessory	4
	blue hurdle accessories	2
	M3*25 flat head self-tapping screw	4

	<p>white step</p>	<p>1</p>
<p>Prepare black and red insulated rubber tapes on your own</p>		

2. Step Assembly

Stick the corresponding tapes on the white step. The effect is as follow:

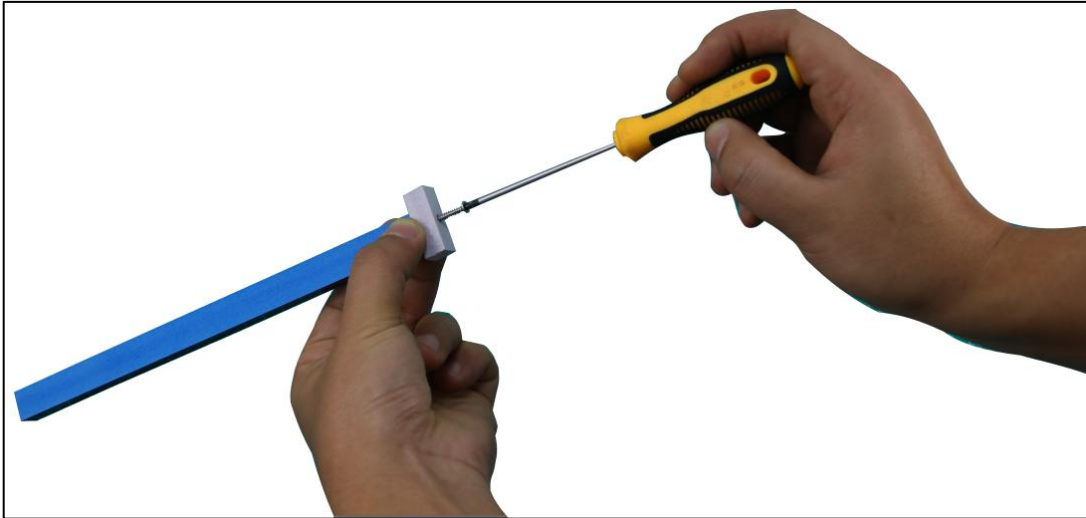

3. Hurdle Assembly

The assembly steps are as follow:

- 1) Place the white hurdle accessory at the end of the blue hurdle accessory.

2) Fix the white hurdle accessory to the end of the blue hurdle with M3*20 flat head self-tapping screw, as the figure shown below:

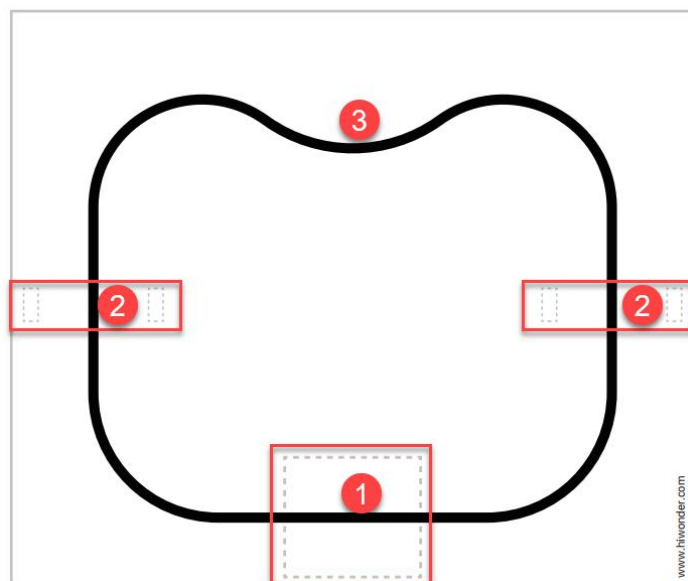

3) Then, assemble the other white hurdle accessory, as the figure shown below:

4. Map Placement

Before playing this game, let's have a look at the map. The map is composed of three parts: ①step placement area ②hurdle placement area ③black track
Its distribution is as follow:

① Step Placement Area

This area is used to place step that has been stuck with tape and the specific placement position is as follow:

② Hurdle Placement Area

This hurdle placement area is used to place two assembled hurdles and the specific placement position is as follows:
