Summary:

NLP engineer with a passion for developing innovative language models. Skilled in creating machine learning algorithms for text analysis and natural language understanding.

Experience:

NLP Engineer

TextTech Solutions

August 2020 - Present

- Developed and fine-tuned state-of-the-art language models for sentiment analysis and named entity recognition.
- Collaborated with data scientists to improve text processing pipelines.

Education:

Ph.D. in Computer Science

Language University

Graduated: July 2020

Skills:

- Natural Language Processing (NLP)
- Machine Learning
- Text Analysis
- Python
- Neural Networks
