SUMMARY

Experienced Software Quality Engineer with over 9 years of expertise in manual and automation testing within the banking and finance domain. Proficient in the full cycle of testing, including integration and end-to-end testing. Strong understanding of core banking, payments, and lending functionalities. Skilled in various automation frameworks such as Tosca, Selenium, and JUnit, along with performance testing tools like JMeter. Demonstrated ability to work with leading product companies in the industry.

WORK EXPERIENCE

Oracle Flexcube - Senior Software Quality Engineer

2018-2023

Led the automation testing efforts for core banking modules using Selenium and Tosca, reducing testing time by 30%. Collaborated with cross-functional teams to enhance end-to-end testing processes, improving defect detection rate by 20%.

Infosys Finacle - Software Quality Engineer

2014-2018

Developed and executed test plans for payment and lending modules, ensuring compliance with industry standards. Utilized JMeter for performance testing, identifying bottlenecks and optimizing system performance.

Avalara - Junior Software Quality Engineer

2012-2014

Assisted in manual testing of new product features, contributing to successful product launches. Participated in the development of an automation framework using JUnit, enhancing test coverage.

SKILLS

Manual Testing, Automation Testing, Tosca, Selenium, JUnit, JMeter

EDUCATION

National Institute of Technology Calicut

Bachelor of Technology in Computer Science

2008-2012
