SUMMARY

A highly skilled IT professional with 12 years of extensive experience in system administration and DevOps engineering. Proven expertise in UNIX and Linux systems, Kubernetes, and cloud technologies, with a deep understanding of Infrastructure as Code (IaC) and cloud offerings from AWS, Azure, and GCP. Experienced in working with international teams, delivering robust and efficient IT solutions.

WORK EXPERIENCE

TechSolutions Inc. - Senior DevOps Engineer

2019-Present

Led migration of legacy systems to Kubernetes, improving scalability and reducing downtime by 30%. Implemented Infrastructure as Code using Terraform, enhancing deployment efficiency by 40%. Collaborated with international teams to integrate AWS and Azure services, optimizing cloud infrastructure.

Global IT Services - DevOps Engineer

2015-2019

Developed automated CI/CD pipelines, reducing deployment time by 50%. Managed cloud resources on AWS and GCP, achieving cost savings of 20%. Conducted training sessions on DevOps best practices, increasing team productivity.

Innovative Tech - System Administrator

2011-2015

Maintained UNIX/Linux servers, ensuring 99.9% uptime. Streamlined system monitoring processes, reducing alert response time by 25%. Assisted in the implementation of a cloud-based disaster recovery plan.

SKILLS

UNIX, Linux, Kubernetes, AWS, Azure, GCP, Terraform, CI/CD, Infrastructure as Code

EDUCATION

Indian Institute of Technology

Bachelor of Technology in Computer Science
2005-2009

St. Xavier's High School

High School Diploma
2003-2005
