

Future of Vue

What's next in Vue ecosystem!

Vue 2.5

```
export default {
  data: () => ({ error: null }),
  errorCaptured (error, vm, info) {
    this.error = `${err.stack}\n\n found in ${info} of component`

    return false // stop propagation
  },
  render (h) {
    if (this.error) {
      return h('pre', { class: 'error-stack' }, this.error)
    }

    return this.$slots.default && this.$slots.default[0]
  }
}
```

```
<template functional>  
  <div>{{ props.msg }}</div>  
</template>
```

```
<?php
$vue_source = file_get_contents('/path/to/vue.js');
$renderer_source = file_get_contents('/path/to/vue-server-renderer/basic.js');
$app_source = file_get_contents('/path/to/app.js');

$v8 = new V8Js();

$v8->executeString('var process = { env: { VUE_ENV: "server", NODE_ENV: "production" }};' +
    ' this.global = { process: process };');
$v8->executeString($vue_source);
$v8->executeString($renderer_source);
$v8->executeString($app_source);
```

Vue 2.5

`sdras/vue-vscode-extensionpack`

What's next?

2.x-next

2.x and 2.x-next parallel releases

Vue Router

No more **Vue Router 2**

vuex

Instead of **Vuex 2**

vue-test-utils

The official testing library (utility)

Coming out of BETA soon...
