Lab Exercise 02.02: Creating users and setting up privileges for each

To create a new user, follow these steps:

1. Login as user SYSDBA.
2. Use **Server > User Security ...**

The screenshot shows a 'User Information' dialog box. It has two main sections: 'Required Information' and 'Optional Information'. In the 'Required Information' section, the 'User Name' is set to 'SYSDBA', and both 'Password' and 'Confirm Password' fields are filled with masked characters. The 'Optional Information' section contains three empty text boxes for 'First Name', 'Middle Name', and 'Last Name'. At the bottom of the dialog, there are four buttons: 'New' (highlighted with a blue border), 'Apply', 'Delete', and 'Close'.

3. Select **New**.
4. Fill out the required fields:
 - User Name: **MGMT**.
 - Password: **manager**.
 - Confirm Password: **manager**.
5. Select **Apply**.
6. Repeat step 5 for a user called **staff** with the password: **staff**
