Pushing Open Source beyond Software

Introduction

At Schrödinger's Hat, we are more than just a community of developers; we are a nonprofit organization driven by a shared vision of an open, collaborative, and inclusive world. Our passion for open-source knowledge extends beyond software, as we seek to empower individuals by making information and resources universally accessible. With a strong commitment to sustainability and accessibility by design, we are shaping the future of innovation by fostering a global community that thrives on shared knowledge and creativity.

As a nonprofit, we are united in our dedication to diversity, equity, and inclusion (DEI) values, bridging the gap between people from all walks of life. We welcome partners and sponsors who share our mission to make a lasting, positive impact on the world.

Schrödinger Hat

Together we strive

Vision

Schrödinger's Hat envisions a world where open collaboration transcends borders, empowering individuals to create and innovate sustainably. We aspire to be a catalyst for positive change, fostering an inclusive global community that thrives on shared knowledge, diversity, and mutual growth.

Mission

The mission of Schrödinger's Hat is to cultivate an inclusive and sustainable open-source ecosystem that fosters creativity, innovation, and collaboration. By connecting diverse individuals and nurturing their talents, we strive to drive meaningful advancements that benefit society as a whole.

Our Events

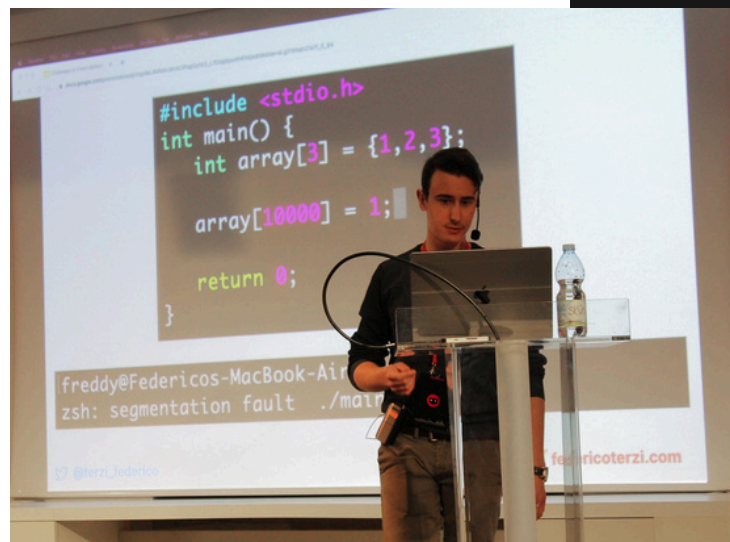

Conferences

At Schrödinger's Hat, our conferences create a vibrant meeting ground for visionaries, innovators, and change-makers to discuss and exchange ideas about technology, open source, inclusivity, artificial intelligence, and the future of tech. Our conferences provide unique opportunities to learn from experts, expand your network, and become an active participant in shaping a more inclusive and sustainable tech landscape.

Sessions

Complementing our conferences, Schrödinger's Hat sessions offer practical, hands-on learning experiences designed to equip participants with the skills and knowledge required to excel in the ever-evolving world of technology. Our sessions, led by industry professionals, cover a wide range of topics, from open-source development and artificial intelligence to inclusivity and DEI strategies in tech. By providing an interactive and supportive environment, we empower attendees to expand their horizons, explore new concepts, and unlock their full potential.

Our flagship event

Our international events feature renowned speakers who inspire, challenge, and engage our ever-growing network of collaborators. As Schrödinger's Hat continues to evolve, we remain steadfast in our mission to drive meaningful change through open-source collaboration and harness the collective power of our diverse community. Our flagship event is Open Source Day.

We are looking for you

Schrödinger's Hat is seeking a like-minded partner who shares our passion for open-source, inclusivity, and innovation. Your sponsorship or in-kind contributions will play a pivotal role in fueling our community's growth and impact. Join us on this journey to empower individuals, expand horizons, and create a more inclusive tech landscape, as we work together to drive positive change through the power of collaboration and shared knowledge.

Open Source is the key to better tech and a good community

We need your help

At Schrödinger's Hat, we embrace transparency and openness in every aspect, including our finances. That's why we use OpenCollective as our fiscal host, ensuring our financial dealings are open-source and accessible. With various sponsorship levels tailored to our diverse events, whether conferences or workshops, we can provide customised opportunities that align with your goals and values. Let's jump on a call, discuss your interests, and discover how partnering with Schrödinger's Hat can amplify your brand while supporting a thriving, inclusive tech community.

Always give back to the communities

Organisers & Contributors

Schrödinger's Hat, a collective of developers, thrives on a three-tier organizational structure. Organizers lead the community, spearheading initiatives and events. Contributors actively participate through open-source contributions and volunteering, while Members enjoy a more relaxed involvement, staying connected and supporting our vision. This structure fosters collaboration, nurturing diverse talents to create an innovative and inclusive tech community.
