How DermAssist works

Submit information about your skin
From your phone or computer, upload 3 photos of your skin condition and answer a few questions. Using what it has learned from millions of skin-related images, DermAssist then looks for signs of various skin conditions in your submitted photos and information.

Receive results within a minute

In a matter of seconds, DermAssist provides you with a list of possible matching skin conditions, and helpful information about each.

DermAssist is designed for use by...

- People 16 and older
- People not looking for a medical diagnosis
