She's still happy to hide. She wrote her current album, *Strange Mercy*, in complete isolation in a Seattle studio. For a month, she spoke to no one except the barista in the coffee shop she'd visit after her morning run. In the studio, she made a mood board, as a fashion designer would, covering it in sources of inspiration plucked from books, films, even family conversations. The haunting chorus line from her song 'Surgeon' – "Best finest surgeon, cut me open!" – comes from Marilyn Monroe's journal. (It was the actress's plea to her acting coach Lee Strasberg, whose Method required actors to dig deep into their own psyches.) "It's bizarre,"

The fact that Annie performs under the name St. Vincent isn't just a case of a shy person hiding behind a mask, however. She is private, she says, but not withdrawn. "I just felt, at the time, that the people who went by their own names were folk singers. I thought 'Annie Clark' would conjure up images of someone in floaty dresses with an acoustic guitar singing soft, sincere songs for coffee houses. And I was terrified of getting anywhere near that." (The name comes from a line in the Nick Cave track 'There She Goes, My Beautiful World': "Dylan Thomas died drunk at St. Vincent's Hospital.") We met for brunch in Angelica Kitchen, a scruffy but comfortable vegan restaurant that has been a Lower East Side
