Avey Tare's voice floats adrift on Animal Collective's second audiovisual album, Tangerine Reef. Made in tandem with Coral Morphologic, the Miami-based duo who merge art and science by growing and photographing coral, the film's soundtrack plays out like a defeated, sunken warning. Coral, like the polar bear and the oil-covered seabird, has become a symbol of human recklessness as our species stares down apocalyptic climate change. It's not cute or warm-blooded, but it's brilliant with fluorescent color when alive, and it bleaches, like bone, when it dies. As the sea warms, coral acts as an
