EXPERIENCE

Junior Data Engineer

01/2022 - 05/2022

- Charged with supporting the main data team and updating data pipelines. I familiarized myself with Google Cloud Platform tools, collaborated in optimizing several processes, and provided continuous feedback that improved our BigQuery scripts. This led to a 40% increase in efficiency for our monthly reporting tasks.
- Hard skills: BigQuery, GCP, ETL, Google Data Studio.

Data Engineer

06/2022 - Present

- Presently, I am in the thick of a project aimed at leveraging Apache Beam with Pub/Sub for enhancing our real-time analytics capabilities. My contributions are centered around designing and testing the new implementation, ensuring data accuracy, and assisting in the transition to this new model.
- Hard skills: Apache Beam, Pub/Sub, Real-time Analytics.
