

# Pyrus

## EDUCATION

---

**Bachelor's in Software Engineering**

**Master's in Computer Science**

## EXPERIENCE

---

### Software Developer

02/2012 - 06/2017

- Focused on developing robust web applications using Java and Spring Framework. Collaborated closely with UI/UX designers to ensure seamless user experiences and integrated third-party APIs to enhance functionality. Took initiatives to introduce containerization using Docker, which improved deployment workflows..
- Hard skills: Java, Spring Framework, API Integration, Docker.

### Full-Stack Developer

07/2017 - 09/2020

- Expanded skill set to include frontend development, specializing in React and Redux for state management. Led a team of 8 developers to create a scalable e-commerce platform, ensuring optimal performance and security. Explored AWS services like EC2 and RDS to deploy and manage the application.
- Hard skills: React, Redux, AWS EC2, AWS RDS.

### Lead Software Engineer

10/2020 - Present

- Overseeing multiple software projects, ensuring best practices and maintaining code quality. Introduced CI/CD pipelines using Jenkins, enhancing development workflows. Collaborated with data teams to integrate machine learning models into applications.
- Hard skills: CI/CD, Jenkins, Machine Learning Integration.

## SOFT SKILLS

---

Effective Communication, Team Leadership, Analytical Thinking, Client-Centric Approach, Problem-Solving, Adaptability.

## LANGUAGES

---

English, Spanish.
