

Messier

EDUCATION

Bachelor of Science in Computer Engineering

EXPERIENCE

Junior Embedded Software Engineer

06/2021 - Present

- Starting my career in a fast-paced startup, I am responsible for maintaining and updating the embedded software on legacy devices to ARM mbed devices. I recognize gaps in device performance and initiate an update cycle that boosts device responsiveness by 10%. I actively participate in team brainstorming sessions, leading to the introduction of two new device features based on user feedback.
- Hard skills: C/C++, Eclipse, Mbed OS.

SOFT SKILLS

Effective Communication, Teamwork, Problem Solving, Adaptability, Continuous Learning, Client-Centric Approach, Analytical Thinking.

LANGUAGES

English, Spanish.
