

# Apple

## EDUCATION

---

**BS in Mathematics**

**Master in Science in Electronic Engineering**

## EXPERIENCE

---

**Embedded Software Developer**

02/2019 - Present

- Join a budding tech startup focused on wearable devices. My primary role is to assist the senior developers in crafting software solutions. Utilize the Qt framework in a supportive capacity, aiding in the development of user interfaces and ensuring seamless operation. My contributions lead to a 10% improvement in software stability and facilitate the launch of two new wearable products during my tenure.
- Hard skills: C/C++, Qt Framework Basics, Qt creator, Valgrind, Embedded Linux, Git, PlatformIO.

## SOFT SKILLS

---

Team Collaboration, Quick Learner, Analytical Thinking, Effective Communication, Adaptability, Attention to Detail.

## LANGUAGES

---

English, Spanish, French (Intermediate).
