## EDUCATION

---

**BA in Software Engineering**

**Master of Science in Computer Science and Engineering**

## EXPERIENCE

---

### Frontend Developer

05/2014 - 04/2018

- Part of a robust team focused on creating bespoke web applications across diverse sectors. The primary challenge was converting intricate designs into engaging and interactive web interfaces using cutting-edge technologies like HTML5, CSS3, and ES6+. The collective endeavor resulted in an average 20% reduction in webpage load times across the board.
- Hard skills: HTML5, CSS3, ES6+, Responsive Design.

### Backend Developer

05/2018 - 09/2022

- Engaged with a fintech entity aiming to elevate its mobile banking service offerings. Devised scalable backend frameworks to accommodate a rapidly growing user base, implemented microservices using Node.js, and incorporated PostgreSQL. Real-time data processing and updates were realized via web sockets. The enhancements paved the way for an expansion of the app's user count from 50,000 to 500,000, maintaining a high uptime of 99.98%.
- Hard skills: Node.js, PostgreSQL, Microservices, Web Sockets.

### Senior Full Stack Developer

10/2022 - Present

- Join a dynamic team during the growth phase of a prominent e-commerce platform. Spearhead the revamping of the frontend using React.js while ensuring a seamless integration with the backend designed on Node.js. Take charge of interfacing with UX/UI teams, establishing RESTful API endpoints, and incorporating MongoDB for data persistence. The outcome is a significant improvement in user experience, marked by a 40% surge in platform responsiveness and a subsequent 25% sales growth.
- Hard skills: React.js, Node.js, Express.js, MongoDB, Jenkins, Responsive Design.

## SOFT SKILLS

---

Effective Communication, Collaborative Teamwork, Analytical Thinking, Client-Centric Approach, Continuous Learning, Efficient Time Management, Leadership Abilities.
