

# Tau

## EDUCATION

---

**Bachelor of Science in Computer Science**

**Master of Science in Computer Engineering**

## EXPERIENCE

---

### Junior Backend Development

01/2022 - 05/2022

- Interned at a medium-sized fintech firm. My role was primarily observational, though I occasionally got to work hands-on with databases, especially PostgreSQL. Assisted in documenting processes and was introduced to the concepts of microservices and real-time data processing.
- Hard skills: PostgreSQL, Documentation, Intro to Microservices.

### Full Stack Developer

06/2022 - Present

- Am part of a development team for a local e-commerce startup. My responsibilities allow me to gain hands-on experience with React.js for frontend tasks. Also I got the chance to delve into some backend functionalities using Node.js, helping in setting up RESTful API endpoints. Am actively involved in team meetings, contributing ideas, which results in a 15% increase in site responsiveness during my tenure.
- Hard skills: React.js, Node.js, Basic API Design, Extreme Programming.

## SOFT SKILLS

---

Team Collaboration, Quick Learner, Attention to Detail, Adaptability, Problem-solving, Effective Communication.

## LANGUAGES

---

English (Native), Spanish.
