

Eucalyptus

EXPERIENCE

Front End Developer

08/2010 - 05/2015

- Engaged with a team responsible for an e-learning platform. Faced challenges with incorporating multimedia content seamlessly. Utilized Angular JS along with HTML5 Video & Audio APIs to embed videos, and implemented courses using SCORM & xAPI standards for quizzes and interactive modules. This led to a more engaging learning experience, resulting in a 30% increase in course completion rates and establishing the platform as a preferred choice for e-learning.
- Hard skills: Angular JS, HTML5 Video & Audio APIs, SCORM & xAPI, Cross-Browser Compatibility.

Senior Front End Developer

06/2015 - 02/2017

- Part of a FinTech startup focused on developing a banking platform. Identified laggy user interfaces as a major bottleneck. Championed the switch to Angular and led a small team to overhaul the platform's front end. The transition resulted in a 25% faster page load time and a 20% improvement in user retention, setting the platform apart in a competitive market.
- Hard skills: Angular, UX, Collaboration with Backend Teams.

Lead Front End Developer

03/2017 - Present

- Led a dynamic team of developers at a high-profile digital agency. Confronted with projects from diverse industries, each demanding unique user experiences, adopted Angular as the primary framework. Collaborated extensively with UI/UX teams to transform their visions into responsive web applications, ensuring that every project was tailored to client needs. Consequently, the agency saw a 40% increase in client referrals and a 30% uptick in project renewals.
- Hard skills: Angular, TypeScript, Angular Material, API Integration, Karma and Jasmine.

SOFT SKILLS

Effective Communication, Team Collaboration, Problem Solving, Adaptability, Analytical Thinking, Client-Centric Approach, Project Coordination.
