

# Messier

## EDUCATION

---

**Bachelor of Science in Computer Software Engineering**

## EXPERIENCE

---

### Web Developer Intern

06/2021 - 08/2022

- Joined an e-learning platform aiming to expand its course offerings. The existing course page templates were rigid, hindering the addition of diverse content types. Taking this into account, I assisted senior developers in building flexible page templates using React. With these more adaptable templates, the platform managed to onboard 50% more courses without major code overhauls.
- Hard skills: React, Template Development, Collaborative Coding.

### Junior Frontend Developer

09/2022 - Present

- Engaged in a team responsible for developing a suite of productivity web apps. User feedback indicated that the apps were not intuitive and lacked cohesive design. Tasked with enhancing the overall user interface, I utilized React to create reusable components, ensuring consistency across all apps. This initiative led to a 30% increase in user engagement and a twofold spike in positive feedback.
- Hard skills: React, Component Design, User Feedback Analysis, Interface Revamp, Collaboration with Stakeholders.

## SOFT SKILLS

---

Effective Communication, Teamwork, Problem Solving, Adaptability, Continuous Learning, Client-Centric Approach, Analytical Thinking.

## LANGUAGES

---

English, Spanish.
