

**Position:** Junior Front End Developer

**Duration:** Permanent Position

**Key Responsibilities:**

- Collaborate with the development team to create and optimize web applications using React.
- Implement responsive designs that function seamlessly across different devices and browsers.
- Participate in regular code reviews to maintain code quality and best practices.
- Integrate UI components with backend services, working closely with backend developers.
- Continuously learn and stay updated with the latest trends and technologies in front-end development.
- Communicate effectively with team members, project managers, and other stakeholders to understand requirements and provide updates.

**Required Hard Skills:**

- Foundational Knowledge of React: Familiarity with React components, hooks, and state management.
- JavaScript Proficiency: Solid understanding of ES6+ features.
- Responsive Design: Basic experience with frameworks like Bootstrap or CSS and tools like Flexbox or Grid.
- Version Control: Experience with Git and GitHub/GitLab workflows.
- Basic Performance Optimization: Knowledge of techniques to optimize the web page loading times.
- API Integration: Basic understanding of how to integrate with RESTful services.
- Web Standards: Familiarity with HTML5, CSS3, and other web standards.
- CSS Preprocessors: Experience with SASS or LESS is a plus.

**Required Soft Skills:**

- Strong Communication: Ability to articulate ideas clearly and accept feedback.
- Teamwork: Enthusiastic about collaborating and working in a team-oriented environment.
- Adaptability: Comfortable with rapidly changing requirements and learning on the job.
- Problem-solving: Analytical mindset with a proactive approach to challenges.
- Attention to Detail: Ensuring that the final product aligns with design specifications and user experience standards.
- Time Management: Ability to prioritize tasks efficiently.
- Continuous Learning: Eagerness to learn about new technologies and tools related to front-end development.

**Preferred Qualifications:**

- Bachelor's degree in a relevant field such as Computer Science, or related.
- Prior experience or internship experience in front-end development, preferably with some exposure to React would be a bonus but is not mandatory.
- A portfolio or GitHub repository showcasing past projects or contributions is a plus.
